

say hello to a happy world

eha is earth – our home. the place we feel safe and secure. eha is also for our homes, our lives & the planet.

eha products are safe & sustainable with superior quality. they are made from biocomposites using responsibly sourced crop residue with circularity principles.

bamboo

rice husk

coffee husk

eha planters aim to remove more carbon than they emit, backed by 10+ years of research and ISO-verified life cycle assessment, they are climate positive.

closing the loop

eha products are made with the foundation of circular economy, closing the material loop to prevent waste and protect natural resources.

opening doors

When you buy an eha product, you create opportunities for many across our value chain. At eha, true success is shared success, built on green economy principles.

from waste to wonderful products

eha, our earth, is where we draw from & also preserve.

We believe everything has value beyond single purpose, and waste is both an opportunity and a challenge. We are enabling a world where we live in tune with nature, where every plant has a song and the husk is valued as much as the grain.

eha planters are made from responsibly sourced crop-waste - including husk, straw, bamboo, coir, wood waste, & pine needles from farmers, FPOs, processing facilities, & managed forests.

We blend these materials with recycled plastics to create biocomposites that are molded into beautiful, lasting planters - preventing crop burning and diverting plastics from landfills.

700 tons

[CROP -WASTE USED]

Comparable to preventing 150 acres of crop burning

300 tons

[PLASTIC WASTE]
That's how much 25,000 adults

consume plastic annually

GLOBAL AWARD 2023 UK

MB 100 (2023) honoree - recognized globally for driving profit with purpose in alignment with UN Sustainable Development Goals (SDG). We take our responsibility deeply: doing good at every step, for people and planet.

lowest CO₂ emission

world's best in the category

* CO2 varies by product spec & manufacturing conditions.

fighting climate change, one planter at a time

9" eha daisy Targeting Co2 -ve for daisy planters by end of 2026

pioneering product

transparency

For over five years, our proprietary traceability system has provided full transparency on CO2 emissions, material composition, and origins. This commitment to openness has enabled us to lead the way in product transparency.

CO2 EMMISION CERTIFICATE

Through rigorous Life Cycle Assessment (LCA) that conforms to ISO 14040 & 14044, we've proven our products range from low-carbon to carbon-negative, actually removing CO2 from the atmosphere. First ARAI certified company for carbon emissions in the category. 9

the smart choice

The most practical & sustainable choice - easy to use, highly durable, with the smallest environmental footprint.

GLOBAL RECOGNITION

Recognized as a top 10 global leader in sustainable materials innovation by StartUs Insights for three consecutive years (2023-2025). This recognition underscores our commitment to driving fundamental change - starting with the materials we use.

rising together

For us, progress isn't about winning alone - it means fostering equity with shared success. We chose collaboration over competition. By working with existing systems and supply chains, we create opportunities for everyone. This approach to social equity, often considered impractical, is both our competitive advantage and moral compass.

Ensured 50% women, from shareholders to

Employed over 50% of staff from rural background

outside our company

Empowered 50+ social entrepreneurs, mostly women

Enabled 25+ plastic converters to use biocomposites

real faces, real impact

These are some of our many faces behind eha. From empowering rural workers to enabling entrepreneurs in their sustainable journey, we create pathways to meaningful livelihoods throughout our value chain.

eco-conscious you

Looking for eco-friendly planters? Concerned about plastic in your garden? Our planters are the solution you've been searching for

beautiful spaces

Sustainable doesn't mean sacrificing beauty. Our planters are designed to create stunning, expressive spaces you'll love.

mindful gifting

When you choose eha as a gift, you have many reasons to smile - happiness for your loved one and the joy of giving with purpose.

hassle-free care

Plant care made simple. Our planters combine durability with practical features - lightweight, self-watering & wheels on few of them.
